## **QUOTE –**

Our firmest convictions are apt to be the most suspect, they mark our limitations and our bounds. Life is a petty thing unless it is moved by the indomitable urge to extend its boundaries. – Jose Ortega y Gasset, Spanish Philosopher

The amount of satisfaction you get from life depends largely on your own ingenuity, self-sufficiency, and resourcefulness. People who wait around for life to supply their satisfaction usually find boredom instead. – William C. Menniger, American Scientist, physician, engineer
