

Seeking Participants for a Brain Imaging Study in ADHD- Attention Deficit Hyperactivity Disorder

Dr. Jeffrey Stanley, Ph.D, Associate Professor of Psychiatry and Behavioral Neurosciences at Wayne State University, is seeking participants for a research study to look at the chemistry, function and structure of the brain in children with Attention Deficit Hyperactivity Disorder (ADHD), *and* children without ADHD.

The study uses magnetic resonance imaging (MRI) to evaluate the brain.

Requirements to Participate

ADHD participants:

- Boys or girls 6 to 14 years of age
- Diagnosed with ADHD or suspect having ADHD

Healthy Control participants:

- Boys or girls 6 to 14 years of age
- No personal or immediate family history of psychiatric or mental illness

Financial compensation will be provided.
